

Blanket Washing Instructions

To schedule a pickup:

Please call or text me and I will get you on my list. You do not have to be present for pickup, but you do for drop off. Make sure that your form is completed and please put it in the black box on the fence/deck depending on drop off location.

***Please do not put wet blankets in the bags if they are wet allow them to dry before bagging them. In the summer heat, they will mold the smell will set in them. If the blanket must be washed more than once to get clean there will be an additional charge

***Fleece and wool coolers/sheets cannot be caked in bedding; the washing process will not get it out and will only make it worse. We also cannot put bedding covered Fleece and wool coolers/sheets in our washers. If you have any questions about a certain item, you are welcome to call or text with questions, or shoot me a picture of the item and I will let you know if I can get it clean.
